To University of Dhaka

The Department for IT Education Development of Moscow Institute of Physics and Technology would like to invite students of your university to participate in the Moscow International Workshop 2020, which is organized in online format. The event will be held within the framework of the internship program.

The Moscow International Workshop will take place from November 28 to December 5, 2020. The official language is English.

Detailed information can be found on the Workshop website: https://it-edu.com/ru/acm-menu/about-workshops/fall-training-2020/.

The main goal of the Moscow International Workshop is to teach students the theory of algorithms, complexity theory, discrete mathematics, combinatorics, number theory, and other areas of computer science; and successful participation at competitive programming championships such as ICPC stages (including the World Finals), TopCoder Open, Google Hash Code, VK Cup, and others. The format of the Workshop is a short-termed practice-oriented educational online program. Online participation contains full educational program: 7 five-hour contests; access to upsolving of the contests within six months after the beginning of the Workshop; access to the stream, video recording, and materials of the contest analysis; access to the stream, video recording, and materials of the lectures (for div.B); electronic certificate of participation for the team.

The full price of remote participation is $480 per team if paid until November 24, and $570 if paid after November 25.

For the additional information, please contact us by e-mail: icpc@phystech.edu. We will be glad to see your students taking part in our Workshop!

With best regards,

Director for Distance Learning Programs

Alexey Maleev
